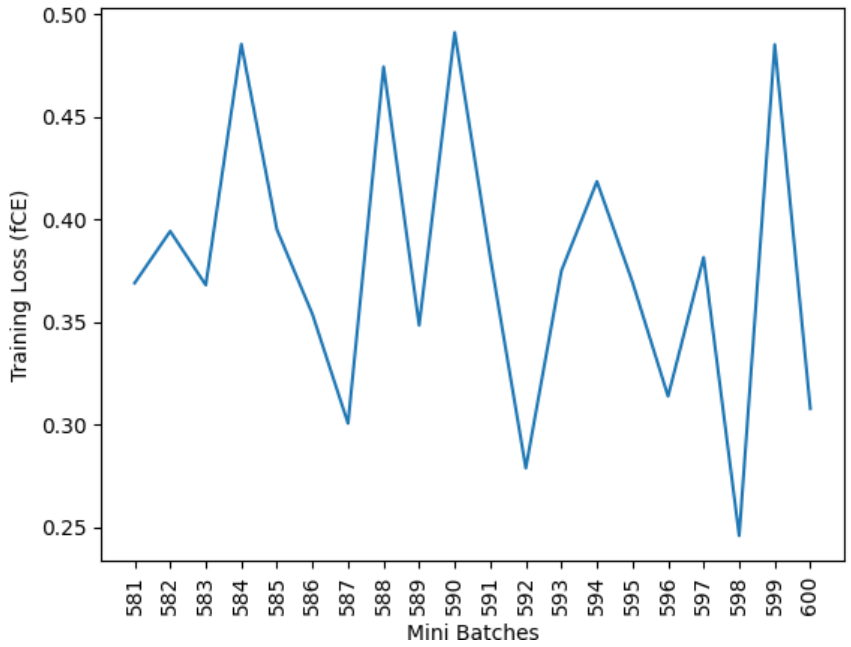
CS 4342 - Machine Learning
Homework - 3 Softmax regression and Titanic Disaster Challenge

Part 1

a. Training Loss during the last twenty mini-batches of the last epoch:



b. CE loss and PC accuracy on the Test set (includes PC for the training data as well)

```
Training Accuracy (fPC): 0.86
Testing Accuracy (fPC): 0.842
Testing Loss (fCE): 0.45215715385915384
```

c. Visualizing trained weights:
